Lois and I were glad to visit with you for a couple days [for Xmas 2022]. Unfortunately, things did not go that well on our way home from the movie or the next morning when you pushed my button concerning illegal immigration [a.k.a. part of the Demoncraps' "Great RE:SET" plan].

I think it is difficult for you, and sometimes even Jason, to understand someone like me who actually thinks your country, **our country**, is being fucked up on a daily basis thanks to the Marxists (like Biden, Pelosi, Schumer, et al) doing all sorts of things to destroy what once was a great country; and one of the last FREE places to enjoy life, liberty and the pursuit of happiness. When I was growing up it was the "land of the free and home of the brave" still. Now it is the land crawling with woke Marxist libtards trying to remake it in the image of some woke central planner deity they cooked up.

Again, the USA is **NOT** a "nation of immigrants". That's just libtard thinking, right along with all the libtards saying the USA is a "democracy". The United States is a **Constitutional Republic**. And it is a **nation of citizens**; like you and Jason and me. It is NOT a fucking nation ruled by and for a bunch of "immigrants" who won't even cross into our country at a normal port of entry the way legal visitors to the USA do every day of the week. Nor is the USA a nation ruled by Marxist Libtard Demoncraps. If you read the U.S. Constitution someday you might figure that out.

That's the bottom line \$.02 so far as I am concerned on that topic. However...

That said, here's [further reading](#) you might want to ponder on that topic. It does a pretty good job of explaining the pros and cons of illegal immigration and what effects it has on the lives of ordinary **citizens** like you or Jason or I or anyone else trying to live in our country legally (like Lois, etc.). It is just too bad all the Marxist libtards out there haven't taken the time to figure this out as yet; no matter how much obvious damage they have caused in the meantime to the lives of over 330 million legal CITIZENS already living in our country...

That article [in the above link] also has links to more **supportive information** [see links below] you can also ponder if you want to get a more in depth understanding of the overall topic of "illegal immigration"; **such as** why it is so hard for people like yourself to land an easy job which also pays you enough to cover your own cost of living, **or** why the libtard utopian vision will eventually collapse the centrally planned **education system**, the U.S. **medical system** ([see THIS PDF FILE](#)) and the **welfare system** you and many others depend on to buy things at the grocery store, etc. (once the libtards destroy the "welfare systems" in each state you can bet working a minimum wage job or relying on unemployment to help provide you and others a place live/sleep won't be the biggest problems in your life)...
