

# Sam Harris PROVES He's a Communist

Sam Harris? Sam Harris? Who the F is Sam Harris? Answer: He's the deep state's social media lead guru. His YouTube channel alone has hundreds of thousands of subscribers. Many times more than that also partake in his web site content, follow his podcasts, etc.

He is a smart guy. Yet, I have always considered Sam Harris to be a communist in some corrupt philosopher's clothing for years now. Finally someone gets him in front of a camera and he **proves** beyond a doubt that he's not only a communist with thousands of social media worshipers but he has one of the worst cases of TDS on steroids, and has been brain worm infected from as far back as 2015 with this disorder, of anyone I have ever seen. **This crackpot actually thinks he can convince anyone who religiously follows him that his support for scum of the earth** swamp muck like Joe brain dead Biden, Barrack liar in chief Obama, Nancy brain fart Pelosi, Chuck shit for brains Schumer, Kamala unburdened by what has been Harris, Adam pencil neck Schiff and the rest of the demoncrap party **is more of a righteous cause** than backing a guy like Trump. He is un-fucking believable.

Harris will never purposely reveal his real political tendencies. But that doesn't mean he won't slip up and expose himself and his true colors every now and then. With an ego like his he can't help himself...

"... But to close the loop on this whole scandal, even that is preferable to me [a central planner communist] and to I think many Democrats [Marxist libtard demoncrap communists and their supporters and voters] than having someone [legitimately elected like Trump] who we consider [actually that we want you to consider] to be genuinely evil, genuinely 100% purposed to serving himself in the office of the presidency. I would... rather have a president in a coma, where the duties of the presidency are executed by a [central] committee [like the CCP] of just normal people[/communists like Harris]. Right? So that's... the choice that many of us believe was before us... [as a communist] I would return to the so-called swamp over what we have now [a halfway legitimate executive branch for once]..."

One can only wonder what it will take to cure people like Harris, infected with level 10 TDS, from their slow motion brain rot. Chances are they will find a cure for cancer first.
