

About U.S. District Court Judge Andres S. Hanen's ruling handed down in response to Obama's DAPA executive order

I am only offering this to those I feel are educated enough to even begin to understand the implications covered within it.

It is the legal document which recently blocked President Obama's and Jeh Johnson's latest effort to allow an extra 4+ million illegals to live and work within the USA (vs. them being rounded up and deported); as was often covered in the news soon after it was issued. You can read it [HERE](#):

The ruling in question is not easy to read; it is about 60 pages and might take several hours for one to read. BUT, it was extremely educational, covers quite a bit of legal history and is well worth the effort.

It will be interesting to see who Obama cons into fighting this battle for him next. First he somehow managed to "persuade" **Janet Napolitano** (the prior head of DHS) to violate the Constitution and U.S. immigration laws, back in 2012, when she issued her "executive order" (**Deferred Action for Childhood Arrivals** - DACA) to allow millions of illegals to expose themselves and stay in the U.S.; as long as Obama is President anyway. And now her replacement, **Jeh Charles Johnson**, is doing Obama's bidding for him, once again (via his **Deferred Action for Parents of Americans** and Lawful Permanent Residents – DAPA). If either of them would have had any balls (something nearly all Democrats lack) they would have told him, "My job is to enforce immigration laws and keep this country safe and secure, not to break laws and allow illegals a way to stay here as long as they want." But, naturally, he did not appoint them because they had any moral backbone. He appointed them because he knew they could be manipulated just like all his other inner circle appointments.

Both Janet Napolitano and Jeh Johnson are nothing more than Obama servants (actually suckers would be a better term) allowing him to break the law (like any mob boss who gets his rocks off by having his attorneys do his bidding for him) without exposing him directly to impeachment as a result (which is also indirectly explained within this court order BTW).

The press irresponsibly claims that Obama, and only Obama, issued the 2012 DACA and 2014 DAPA "executive orders" allowing (or trying to allow) the illegals to remain in the U.S. without any threat of being deported. But, in fact, he has never issued either order himself. Janet Napolitano and Jeh Johnson are the suckers who actually did all the dirty work for him... just like Eric Holder does (did) for him from within the Justice

Department, by turning a blind eye to Obama's every illegal move. Obama is chicken shit all the way. He always has been and always will be.

Anyway...

The **linked PDF file** (see link above) is the rather long and complicated "opinion" and "injunction order" which was recently handed down by U.S. District Court Judge Andres S. Hanen (finally a judge with some guts and some brains) in the case of **Texas, et al. vs. USA** (a.k.a. The Department of Homeland *Insecurity's* Secretary JEH JOHNSON). Take a crack at it if you are so inclined.

P.S. In February 2015, Secretary Jeh Johnson dispatched a letter to law enforcement leaders nationwide in which he threatened cuts in federal funding for crime fighting if the U.S. Congress fails to fund President Obama's amnesty program for illegal immigrants beyond the deadline of February 27. Johnson was challenged by a group of sheriffs nationwide. Justin Smith of Larimer County, Colorado, remarked in opposition, "Let me get this straight - the president believes he has the authority to nullify federal laws that don't serve his personal agenda, but if Congress dares to exercise its responsibility of controlling the purse strings, he will willingly hold public safety grants hostage just to get his way?"
