

What U See Is What U Get – Trump/Vance v Harris/Walz

More details about the 2024 President/VP candidates and their positions on the following issues and beyond can be found at either of these two candidate web sites...

[Trump/Vance - Republican Americans](#) [Harris/Walz - Demoncrap Communists](#)

This is a quick summary of several of the key considerations any voter should consider before voting in the next general election. Pass it on.

Trump/Vance

Build the wall – Trump/Vance will do as much as possible* to secure our U.S. borders from illegal immigration and deport as many illegals – that were both allowed and assisted into the country by the Biden/Harris administration against current law – as possible. They will restore the missions of Homeland Security and ICE while enforcing the law at U.S. ports of entry. And they will slow down the flood of killer drugs currently moving over the border in the process. The days where the drug cartels and China's fentanyl war on the U.S. have gone unanswered will be a thing of the past. Trump and Vance will both face down foreign leaders who sleep in bed with these corrupt actors in the future.

Lower taxes – Trump/Vance have already made promises to lower taxes and reduce regulations* in order to address the sluggish economic issues triggered by the Biden/Harris mal-administration of the economy and lack of actions to address inflation. Trump has promised to cut taxes on tips and Social Security. And he promised to allow oil exploration and drilling on public lands, etc. All of these actions will go a long way to improve economic conditions and the cost of living of the average American consumer. The sooner people vote for Trump and the GOP the better it will be, even though reversing the damage done by the communist Biden/Harris regime will be difficult at best; unless the GOP also wins both houses

Harris/Walz

Support illegal immigration – Harris/Walz will do nothing to curb illegal immigration for yet another 4 years plus, resulting in up to 30 million (or more) illegal immigrants and voters, trained terrorists and communist/fascist military personnel, drug pushers, organized criminals, gang members and so-called anchor babies to live among us at tax payer expense; hopefully bankrupting the country in the process. All of these actions will result in more deaths and a lot worse and more costly conditions when it comes to medical services, education, housing, food and welfare management; thus negatively affecting sanctuary city budgets and increasing both homeless and criminal populations across the nation. While Homeland Security halted flying illegals into the country during the election cycle, it will be resumed again once Harris and Walz are installed within the White House with their executive orders in front of them to sign.

Higher taxes – Harris/Walz have no idea how they might turn the economy around unless they decide to apply conservative suggestions and ideas to their re-election cause. Just like Biden has always done in the past, Harris is now plagiarizing ideas from others and trying to flip flop on prior policies. She says she also wants to cut taxes on tips (Trump's idea) and she is now for fracking (at least until she wins the White House). She also says she wants to raise the minimum wage which always results in more lost jobs for entry level workers. As with all demoncraps, Kamala is a chameleon who will make promises to harvest votes and support but she will go right back to the central

in D.C. If you really want to see “no tax on tips” and no IRS agents coming after you vote Trump.

planning, communist playbook to undermine American values and hold onto power.

* If the demoncrap party takes the House or Senate any necessary votes or budget management needed to recover from the damage Biden and Harris created will be limited at best.

U.S. energy independence – Trump/Vance will do as much as possible to reduce the country’s dependence on gas, oil and other key energy resources obtained from foreign nations; thus lowering costs at the pump and at home. Once again re-establishing our energy independence, while driving down the associated costs of transportation, should also help lower inflation by reducing the cost to get goods to the market. Likewise, lower costs at the pump act much like a pay increase for the average commuter who will be able to spend hard earned income in more productive ways instead. Drill baby drill.

U.S. energy dependence – Harris/Walz will most likely hamstring energy producers (at home and abroad) for yet another 4 plus years. Rather than producing cleaner energy under reasonable regulations at home they will no doubt prefer that nations like Russia and China corner the markets and make all the profits at our expense, while generating much more global pollution in the process. Likewise, by selling dirty oil and gas they will then be able to leverage their profits in order to build up their own militaries and soon rule the world while imposing their communist dictates on billions.

Support women when it counts – Trump/Vance will do their best to support women by making sure males do not compete with females in sports while making sure boys/men don’t use restrooms and locker-rooms young women use for their own safety and privacy.

Support creeps not women – Harris/Walz will empower creeps to enter women’s restrooms and locker-rooms where they can overpower the weaker sex. They will also allow fake men to play in women’s sports in support of their experimental DEI agenda at the expense of those who do not swallow their woke agenda.

Support kids when it counts – Trump/Vance will do their best to support kids by making sure quacks do not perform sex change operations without parental consent and before they are old enough to make informed decisions on their own. Backing parental rights require backing the right candidates.

Support creeps not kids – Harris/Walz will continue to empower creeps that manipulate the young into their abnormal lifestyles and that wish to expand their experimental medical practices to enrich themselves (via such things as sex changes operations and abnormal DEI rituals) at the expense of those who do not swallow their woke agenda.

Support the law not criminals – Trump/Vance will do their best to support police and make sure that if you do the crime you do the time. Antifa, Pro-Hamas, communist Black Lives Matter, and other demoncrap anti-American front groups and rioters will most likely be dealt with whenever they raise their ugly heads. And there’s also a much better chance the corrupt DOJ and FBI police state will be cleaned up as well.

Support creeps and crime – Harris/Walz will continue to empower creeps that break our laws. Both have a long track record of looking the other way and helping criminals get out of jail free, while the lawless burn down cities, destroy property, steal like drunken sailors, sell drugs, kill each other, etc., etc. Criminals walk free while victims pay the price without any relief in a woke Biden/Harris/Walz administered world.

Uphold the Bill of Rights – Trump/Vance will do their best to respect everyone’s right to free speech, expression and religion, to keep and

Trample on the Constitution – Harris/Walz will continue to empower tyrannical power grabs at the federal level. The **police state** will only

bear arms and to have a right to privacy, etc. The powers exercised by the federal government will be far more limited under Trump/Vance with more power being retained at the state and local level (such as, for example, in the case of abortion); just as the founders intended. Should a need arise to replace a Supreme Court member again, you can bet Trump will provide a much better option than Harris would ever dream up.

Uphold democratic voting – Trump/Vance are doing their best to fight the demoncrap police state attempting to put Trump in jail vs allowing any voters to vote for them. The GOP has already started cleaning up the voter rolls in states like Nevada and Virginia, which is a good start. But there is still more to be done that will only happen if people vote for Americans like Trump/Vance.

continue to grow. The courts will only continue to support their **Marxist/communist agendas**. Power will continue to become more and more **centralized in D.C.** while money is directed to their favored lackeys and support groups; so that the Marxists in D.C. can continue their top down control over the nation and the military, and to retain favor with their other communist and fascist bedfellows around the world.

Disenfranchising voters – Harris/Walz and the Biden administration (and their crony state level communist party activists and lawyers) are once again working overtime to rig the election in every swing state. They have been using their typical dirty tricks and corrupt judges to try to keep RFK Jr off the ballot in states like NY where he has lived his entire life. They want one party communist rule in D.C. and will do anything to retain power no matter how tyrannical and lawless they must be to achieve their goals.
